Address: Belagavi, Karnataka, India Pin: 591309

Objective

MCA Graduate skilled in both **full-stack development** and **data analytics**, with hands-on experience building web applications using the **MERN stack** and delivering data-driven insights through **Python, SQL, and Power BI**. Strong foundation in OOP concepts, SDLC, and working knowledge of Data Structures & Algorithms, complemented by practical exposure to dashboard development and exploratory data analysis.

Education

Master of Computer Applications (MCA)	2024 - 2026
Jain College of Engineering (JCE), Belagavi	CGPA: 9/10 (Per: 85.5%)
Bachelor of Computer Applications (BCA)	2021 - 2024
SNJPSNMS Trust's BCA College, Nidasoshi	CGPA: 8.2/10 (Per: 78.3%)

Key Skills

- **Languages:** Python, Java, JavaScript
- **Web Technologies:** HTML5, CSS3, React.js, Node.js
- **Databases:** MongoDB, MySQL
- **Data & BI Tools:** Power BI (DAX), Advanced Excel (Pivot Tables), SQL (Querying, Aggregations, Data Cleaning), Python (Pandas, NumPy, Matplotlib),
- **Tools & Deployment:** Git & GitHub, VS Code, Vercel, Render
- **Analytical Skills:** Root-Cause Analysis, Trend Identification, Data-Driven Decision Making
- **Professional Skills:** Communication, Cross-Functional Collaboration, Business Reporting

Projects

- **Personal Finance Dashboard** | [Link](#) *MERN Stack*
 - Built a personal finance dashboard to track expenses, savings, and budgeting activities.
 - Visualized transaction details and financial insights using charts and analytics.
 - Iteratively developed and debugged features following Agile principles.
- **Online Library Management System** | [Link](#) *MERN Stack*
 - Developed a full-stack web application for managing books and library operations.
 - Built REST APIs for book issue/return, student management, and fine tracking.
- **Supply Chain Analysis Dashboard** *Power BI, Python, SQL*
 - Collected and analyzed supply chain data using SQL and Python to build an interactive dashboard.
 - Identified data inconsistencies through root-cause analysis, improving data accuracy.
 - Delivered reports and dashboards to support data-driven business decisions.

Experience

Data Analytics Intern	Feb 2026 — Apr 2026
Excerpt Technologies Pvt. Ltd., Bangalore	
• Performed data cleaning, preprocessing, and analysis using Python, Pandas, Excel, and SQL. • Developed Power BI dashboards using KPIs, DAX measures, and interactive visualizations. • Analyzed supply chain data & generated insights supporting business performance and decision-making.	

Certifications

- **Tata GenAI Powered Data Analytics Job Simulation** — Forage — May 2026
